- Only law enforcement and the court can remove a child from a parent’s custody.
- DCF does not remove children or decide to take children into state custody.
- During an assessment or prevention service delivery, when there is a concern a child may need to leave the home due to safety concerns, a Team Decision Making meeting is held.
- There are times when the safest decision for a child is protective custody removal into foster care.
- If DCF determines it is not possible to protect a child through services or other actions it recommends that the county or district attorney file a Child In Need of Care, or “CINC,” petition

## ENTRY INTO FOSTER CARE

4

## HOW IT'S GOING - BY THE NUMBERS

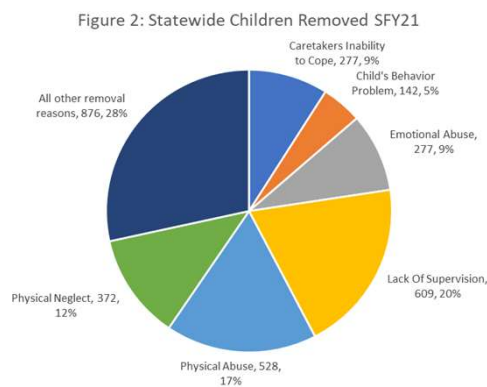

5

5

## HIGHLIGHTS IN SFY21 CONSIDERING ALL POSSIBLE REASONS FOR REMOVAL:

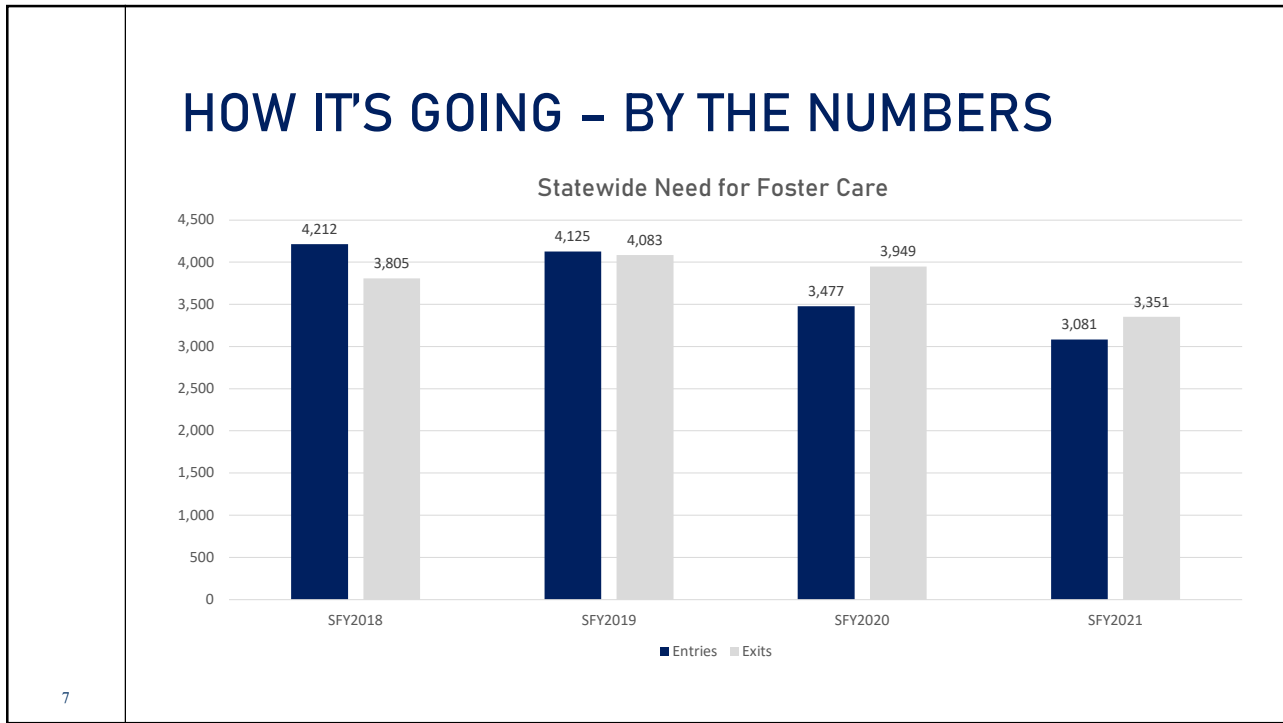

- 76% of all children removed were for reasons of abuse or neglect and 24% were for reasons related to a family in need of assessment which are not abuse or neglect.
- The most frequent reason for removal is related to neglect reasons (35%): Lack of supervision, 20%; physical neglect 12%; medical neglect 2%; and educational neglect 1%.

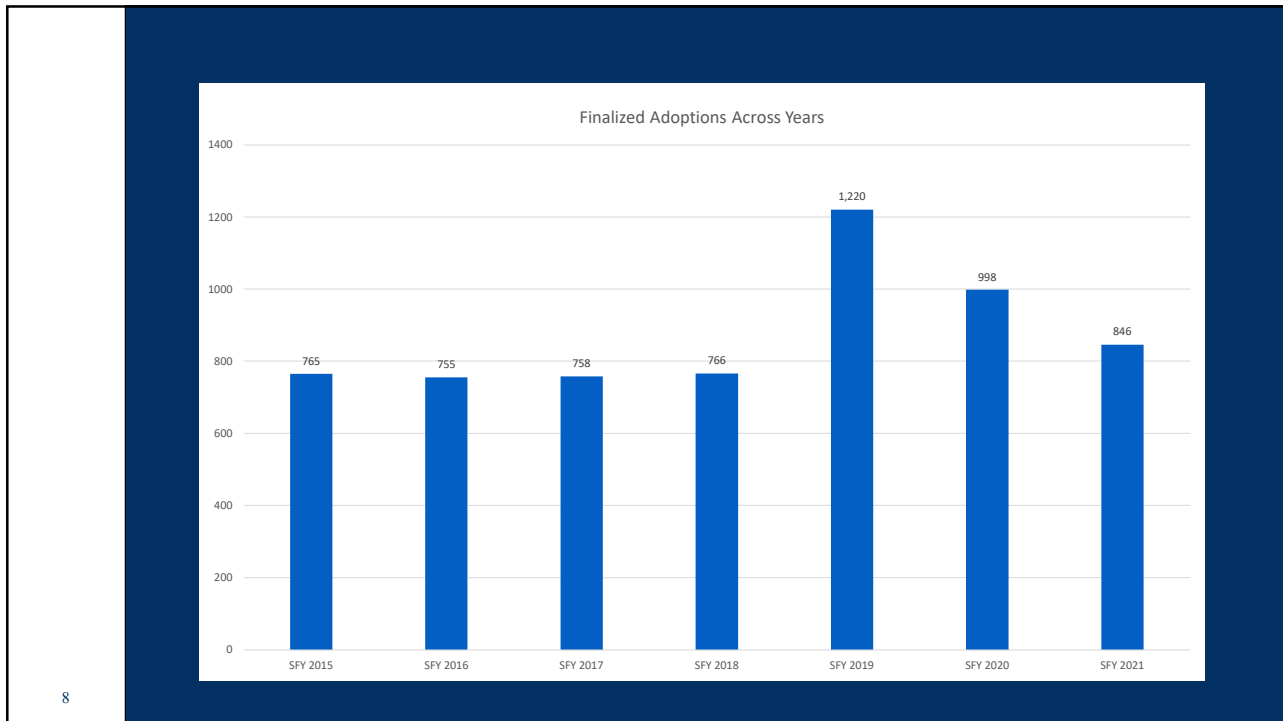

- 9% of children enter care related to a parent's inability to cope with circumstances of their situation to meet the child's needs that is not neglect.
- Across these reasons for removal, there were few differences between SFY20 and 21 with exception to lack of supervision, which increased from 15% in SFY20 to 20% in SFY21

- Placement decisions are a responsibility of case management providers.
- Following disposition, courts must have permanency hearings to evaluate progress towards case plan goals at a minimum of every 12 months
  - The court will continue to have final say over the child's case plan
- Case plan goals include: reintegration with the family, permanent guardianship/adoption, and other planned permanent living arrangements (OPPLA)

## CAPACITY & NEED FOR FOSTER PARENTS

There is strong capacity in the number of foster homes; however, gaps and/or barriers are at times experienced when it comes to available placements being able to meet specialized identified needs, including but not limited to children and youth experiencing:

- High acuity
- Older than age 12
- Reservations about or refusal of a placement
- Medical or developmental disability concerns
- Emotional crisis to prevent PRTF/Acute care

19

19

## CAPACITY & NEED FOR FOSTER PARENTS AND SUPPORTS TO RELATIVES & KIN

- More specialized and in-home supports are needed to fill the identified gap
  - This would include a category of homes or level of care trained to meet children with higher needs and compensated accordingly.
  - DCF and KDADS researching professional foster home model in Missouri and treatment foster homes.
  - DCF engaging communities statewide through Families Over Facilities in effort to keep children in the custody of the Secretary in family-type settings. Part of focus is what is needed within communities for support and service provision to allow for successful placements.
- Children may experience failure to place due to
  - Relative or foster parents not trained or willing to serve high acuity needs of children.
  - Children often have reservations about or refuse placement.
  - Some foster homes not feeling comfortable taking teens.
