Adobe Acrobat Extension for Microsoft Edge

1) Open Microsoft Edge and select the Settings and more menu (···) in the upper-right corner.
2) Select Extensions, then select Get extensions for Microsoft Edge.

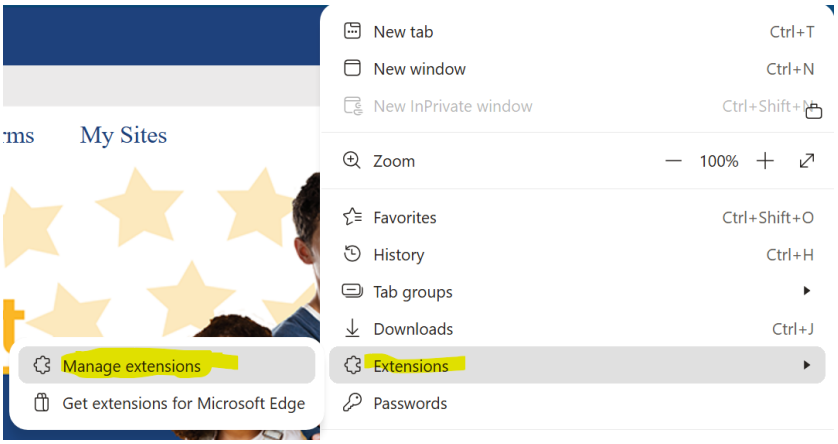

3) The Microsoft Edge Add-ons page will open

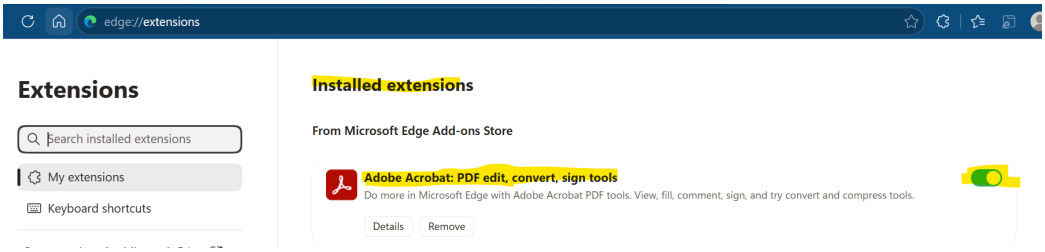

4) Search for Adobe Acrobat and select Get.

5) The Adobe Acrobat extension will be added to Microsoft Edge. To verify that it was installed, open Settings and more (···) > Extensions and confirm that Adobe Acrobat appears under Installed extensions.
6) To view extensions managed by your organization, open Settings and more (···) > Extensions > Manage extensions.
