SUCCESS STORIES KANSAS PRACTICE MODEL

Provides a consistent and customized framework to support engagement, safety planning, and decision making to guide our work alongside families, children, and youth.

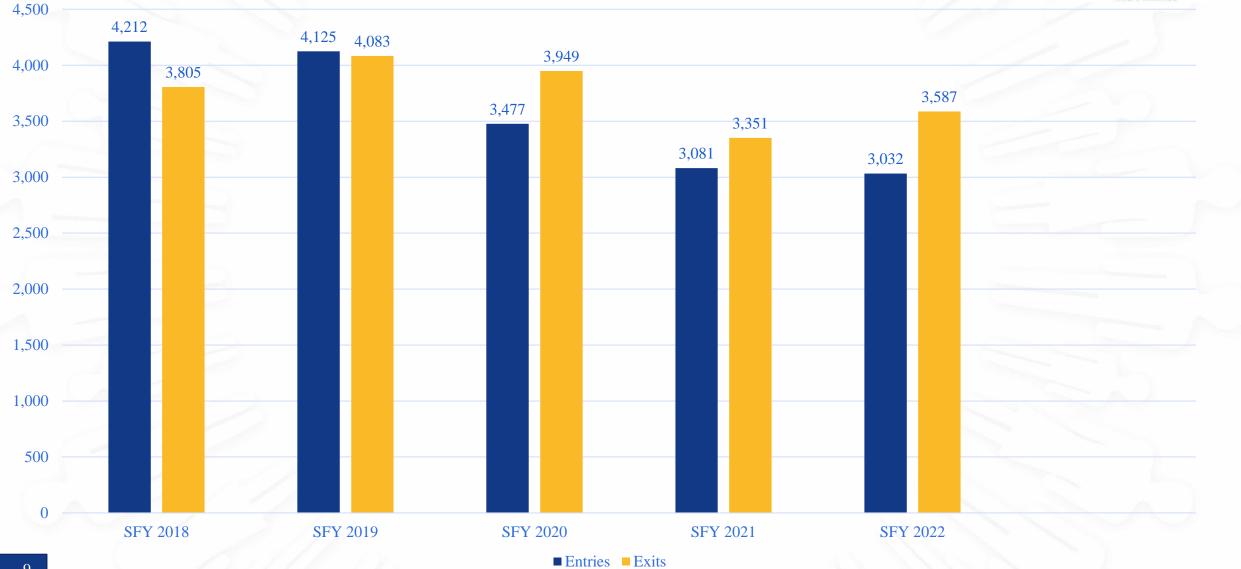

- Foundation of the Kansas Practice Model:
 Team Decision Making
 - Family Finding
 - Signs of Safety
 - Structured Decision Making
 - Solution Focused Questions
 - Resolutions Approach

- As a result of this work, we are seeing a dramatic drop in the need for foster care:
 - The state currently has 6,248 youth and children in care, down from 7,600 at the beginning of the Kelly administration.
 - In FY 2020, there were 15 percent fewer children entering foster care than in FY 2019.
 - In FY 2021, there were 11 percent fewer than in FY 2020.
 - In FY 2022, there were 2 percent fewer than in FY 2021.

Children Entering & Exiting Foster Care Across Years

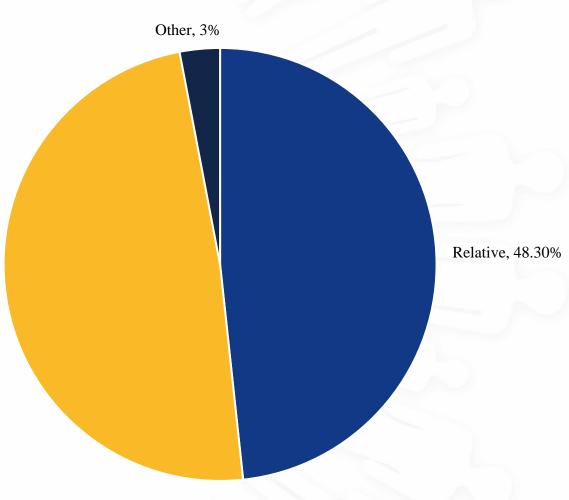

SUCCESS STORIES FINALIZED ADOPTIONS

Adoptions increased in SFY2019 averaging just over 1,000 annually the past 4 years.

- The average age of a child at the time of the finalized adoption is 7 years with two-thirds of children adopted age 8 or younger (65%).
- The average length of time in care is 39 months and over half of children (59%) are Foster Parent, 49% adopted as part of a sibling group. \

In SFY 22, Nearly all 948 adoptions were finalized with a relative or foster parent and in SFY 22, 48.7 % were with a foster family and 48.3% were with a relative.

Adoptive Parent Relationship, SFY 2022

SUCCESS STORIES FAMILY FIRST PREVENTION SERVICES ACT

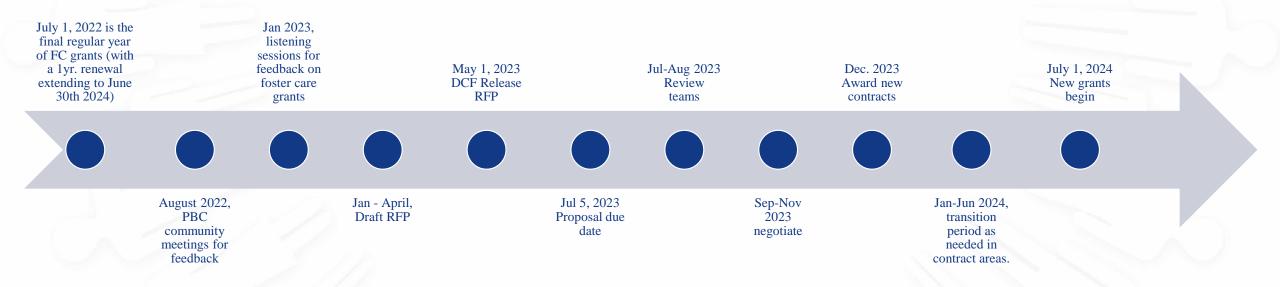

- Significant impact on reducing the need to bring children into the custody of the Secretary.
- The program provides grants to agencies providing services in:
 - o Mental Health
 - Parent Skill Building
 - Kinship Navigation
 - Substance Use Disorders
- A chief measure of the program's success is the percent of children remaining at home after 12 months of referral. Initial data shows that overall, 89% of children and youth who have reached 12 months from the time of referral have remained at home. The program goal is 90%. The rates for two categories, kinship navigation and mental health, were 100% and 90%, respectively.

STATUS UPDATE COMPREHENSIVE CHILD WELFARE INFORMATION SYSTEM

- The new Comprehensive Child Welfare Information System (CCWIS) will modernize state child welfare systems and develop interfaces between the various agencies serving the Child Welfare and Adult Protectives Services programs.
- Currently, there are five legacy systems of varying ages and capabilities supporting child welfare programs. Major components of the existing systems use aging mainframe technology, unsupported operating systems, and obsolete programming languages. This makes the present systems difficult and costly to maintain, modify, or improve.
- Funding was added by the Legislature for FY 2021 to FY 2023 for the planning and design phase with the understanding that an estimated \$100 million would be needed for the development phase lasting 3 to 4 years.
- High Level Plan has been finalized by the Department of Administration for RFP issue.

STATUS UPDATE COMPREHENSIVE CHILD WELFARE INFORMATION SYSTEM

Design, Development and Integration RFP

• Seeks bidders who will lead the CCWIS effort alongside State resources to design, develop and implement the CCWIS system

Quality Analysis RFP

• Seeks bidders who will provide quality analysis services of project deliverable from the DDI vendor, such as the validation of system functionality delivered compared to the system requirements provided by the State

Independent Verification and Validation RFP -

• Seeks bidders providing services for Independent Verification and Validation on the project. The IV&V vendor will review overall project performance such as adherence to project schedule and scope and provide analysis and feedback based on regularly scheduled interviews with Project team members, leaders and vendors
