

## **Family Finding Search Websites**

The following websites can be utilized to obtain information concerning specific persons or persons (such as relatives or neighbors) that may have knowledge of the current whereabouts of a specific person. Each website is currently free and available to the public. The websites also have the capability to obtain more detailed information, on a specific person, for a fee. Each website will request specific information in order to provide contact information for a specific person. The websites are constantly being updated with new fields. Additional information may be requested in the future. The websites will have additional links and/or search engines to assist with obtaining additional information on specific persons. The following websites can be used to gather contact information for relatives and, sometimes, neighbors.

These are helpful for obtaining information on females, as a female's name may change when she marries. To search, enter the first name, middle initial, birth date and/or age (with NO last name). All females born on that specific date, with the same first name and middle initial, should be listed, with all last names the female used. It also provides list of possible relatives in same area. When searching for a male, enter the first name, middle initial and last name, along with birth date and age. The same information will be provided. In addition, try searching for females by entering the first name, middle initial and last name, along with birth date and age.

[www.zabasearch.com](http://www.zabasearch.com) Provide name of person, with or without state and get list of people, addresses and phone numbers in state/nation with same name. Birth dates are sometimes available with the contact listing.

<https://www.whitepages.com/> Provide last name, city and state to obtain all people (with same last name) phone/address listings. Provide first and last name to narrow down the list. This is an on-line telephone directory- also may name roommates or relatives and ages.

[www.google.com](http://www.google.com) - Put name in "quotes" to obtain information for a specific person.
