

### ***Kansas AFDC Need Standards Effective July 16, 1996***

The eligibility specialist must determine if the child's removal home was a Non-Shared Living environment or a Shared Living environment and the county level where the removal home was located. The county levels are on page 2.

***Non-Shared Living:***

*there are **no** other adults residing in the child's removal home other than the adult(s) in the AFDC Group.*

***Shared Living:***

*there **are** additional adult(s) residing in the child's removal home other than adult(s) in the AFDC Group.*

***Note:***

*Households with adult SSI recipients not included in the AFDC group use shared living if the SSI payment is the full amount; if less than the full amount use non-shared.*

The charts below include the allowable income limits for the Child's AFDC group to meet the two step process of determining the 185% and 100% of the AFDC Needs Standard Income tests. If the child's AFDC group's total countable income exceeds the allowable limits then child does not meet the applicable 185% or 100% AFDC Needs Standard Income test.
