K-PARC

Kansas Adoption Resource Center

K-PARC is dedicated to strengthening kinship and adoptive families in Kansas. We're a group of families, just like yours, working together to connect parents to professionals, services, and resources, regardless of where you are in your adoption journey.

Advocacy

Your work parenting a child who has experienced abuse and neglect can be just as tough as it is rewarding. The advocacy program connects you to other caregivers who have been in the trenches of foster care and adoption to help address your specific concerns.

We can help manage a crisis, but the goal is to get supports in place before it gets to that stage. Our advocates walk alongside you to provide information and resources, listen and help you get the answers and solutions you need.

Adoptive Family Retreats

Adoptive Family Retreats are a free parent education opportunity that will help you remember why you wanted to be an adoptive parent! The retreat is facilitated by K-PARC staff and offers the time and space to interact with other good-hearted caregivers like you to learn some new skills to make family life more rewarding.

K-PARC staff are happy to match new parents to trained and knowledgeable parent volunteers who have already experienced some of the challenges and joys of parenting kids affected by trauma.
