

Keep Your EBT Card and Benefits Safe and Secure!

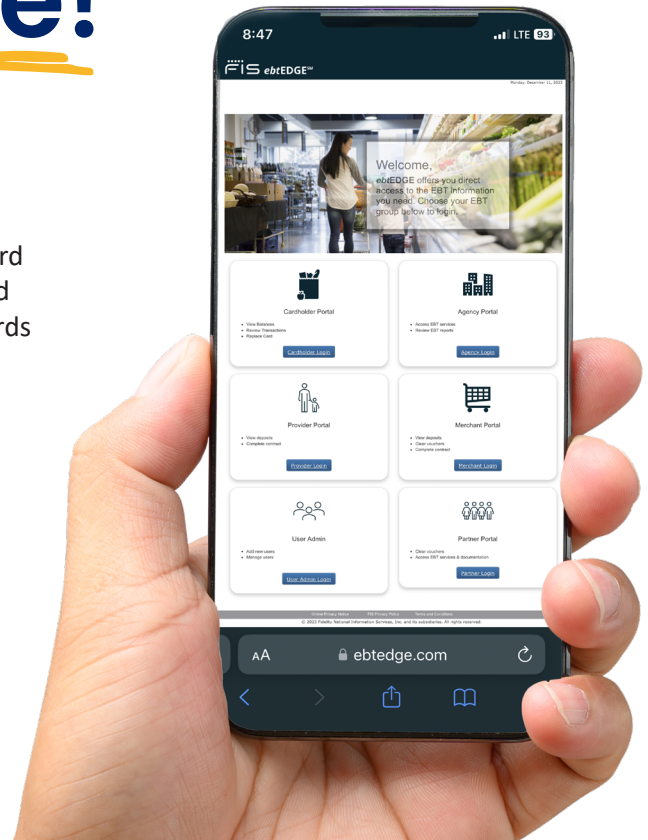

Stay Aware!

Card skimming can happen anywhere you swipe your EBT card, credit or debit cards. Thieves illegally place skimming devices on retailers' card readers. When a card is swiped, the card number and PIN are collected by the thieves. This card information can then be used to clone the cards and make online purchases – often from out of state.

Phishing scams involve fake emails, phone calls and text messages that appear to be from a trusted source, like DCF. Thieves then trick cardholders into providing confidential card information.

Visit ebtedge.com and protect your card today!

Protect Your EBT Benefits

Help protect your Food Assistance (SNAP), SUN Bucks, TANF Cash Assistance and Child Care Assistance benefits by using the free ebtEDGE mobile app or ebtedge.com. Connect your EBT card to the app or website by creating an account online and following the prompts to add your EBT card. In the app, click *Manage Your Card* to utilize security features.

- Freeze your card. Adjust the toggle button on or off. The toggle must be off to make a purchase.
- Block out-of-state and online transactions. Adjust the toggle buttons on or off. The toggles must be off to make an out-of-state or online purchase.
- Click *Card PIN* to change your PIN monthly before benefits are loaded.

The ebtEDGE mobile app is available to download in the Apple App Store (iOS) and Google Play (Android).

Please Note: Effective December 2024, federal funds are no longer available to replace stolen SNAP and TANF benefits and state funding is not available to reimburse stolen benefits. This means DCF cannot replace benefits or reimburse Kansas cardholders for stolen SNAP and TANF benefits.

If you believe your benefits have been stolen, request a new card by calling ebtEDGE Customer Service at 1-800-997-6666, going to ebtedge.com or by using the ebtEDGE app.
