ACRONYMS

State agencies may consider including acronyms for the SNAP State agency, SNAP E&T program name, State's management information system, and SNAP E&T providers or contractors.

The below list includes common acronyms utilized within this plan.

Acronym	Definition
ABAWD	Able-Bodied Adult without Dependents
CEC	Community Engagement Coordinator
CN	Career Navigator
DCF	Kansas Department for Children and Families
E&T	Employment and Training
EES	Economic and Employment Services
FAET	Food Assistance Employment & Training Program
FNA	Food and Nutrition Administration
FNS	Food and Nutrition Service
FY	Fiscal Year
GA	General Assistance
ITO	Indian Tribal Organization
KEES	Kansas Eligibility & Enforcement System
KEESM	Kansas Economic & Employment Services Manual
LIEAP	Low Income Energy Assistance Program
NCC	Non-Compliance Coordinator
SNAP	Supplemental Nutrition Assistance Program
TANF	Temporary Assistance for Needy Families
USDA	United States Department of Agriculture
WASCK	Workforce Alliance of South Central Kansas
WIOA	Workforce Innovation and Opportunity Act

SUMMARY OF PROGRAM

Provide the vision and mission of the State E&T program. In addition, describe how your State agency's E&T program meets the purpose of E&T which is to:

- Increase the ability of SNAP participants to obtain regular employment
- Meet State or local workforce needs

•The vision of the Department of Children and Families Economic and Employment Services is: Families are stable, connected and empowered to progress.
•SNAP E&T serves all work ready Kansans who are 18 to 64 years old without dependent children under 14 in the household and who are not working at least 30 hours weekly. Career navigators, employed by DCF, provide assessment and case management services to E&T participants.
•SNAP E&T strategies to meet the state or local workforce needs are summarized in the Consultation and Coordination with the Workforce Development System section.

Is the State's E&T program administered at the State or county level?

- [x] State
- [ ] County

Provide the web addresses (URLs) of State E&T policy resources used such as handbooks and State administrative code, if available. Enter a single URL per row.

PROGRAM CHANGES

Summarize changes for the upcoming Federal fiscal year (FY) from the prior FY. Significant changes may include new initiatives, changes in funding or funding sources, policy changes, or significant changes to the number of partners or participants. Significant changes could include those made as a result of management evaluation findings or participation in program improvement initiatives, such as SNAP to Skills. It is not necessary to include changes made as a result of new Federal rulemaking.

Kansas HB2731 passed and requires SNAP E&T participation to include non-exempt SNAP recipients 18-64 with no dependents under 14, who are not working 30 hours per week.
Due to federal policy, individuals ages 60 to 64 are not subject to the general work requirements, per section 6(d)(1)(A) of the Food and Nutrition Act, and may not be required to participate in mandatory SNAP E&T. Mandatory SNAP E&T participation will be limited to non-exempt SNAP recipients 18-59 with no dependents under age 14
Technical assistance continues to be provided by FNS as part of the More Than a Job campaign. As part of this campaign new educational material has been created to highlight the benefits of participating with Mandatory E&T and will be implemented once approved.

Highlight any changes from above that the State agency is making to the E&T program based on the prior year's performance, for instance changes made as a result of E&T outcome and participation data.

To improve participation and outcomes DCF continues to search for a provider who will offer the Work Experience component to clients.
A Request for Proposal (RFP) for E&T providers is being created to locate and contract with providers that offer SNAP E&T components in rural areas of the state where lower participation levels exist.

CONSULTATION AND COORDINATION WITH THE WORKFORCE DEVELOPMENT SYSTEM

State agencies must design the E&T program in consultation with the State workforce development board and operate the E&T program through the statewide workforce development system (7 CFR 273.7(c)(5)). The goal of this section is to explain the relationship between the State agency and other organizations it plans to consult and coordinate with for the provision of services, including organizations in the statewide workforce development system. The statewide workforce development system refers to a network of providers, which may include government and the public sector; community-based organizations and non-profits; employers and industry; occupational training providers; and post-secondary institutions, such as community colleges. Please note the State workforce development board is an entity that establishes Regional strategic plans and sets funding priorities for their area. They are distinct from State workforce agencies.

Consultation

Consultation with the workforce development system generally includes discussions to learn about services provided in the community and how each organization functions and coordinates with others in the community. State agencies can demonstrate they consulted with their State workforce development board by noting the dates of conversations, who they spoke with, what they spoke about, and how they incorporated this information into the design of their E&T program.

Did the State agency consult the State workforce development board?

- [x] Yes
- [ ] No

Describe how the State agency consulted with the State workforce development board in designing its SNAP E&T program. Include the names, dates and outcomes of the consultation.

Date	State Workforce Development Board Name	Title(s) of Person Consulted	Outcome of Consultation
12/08/2026	Workforce Board	Entire Board	Due to a conflict, this consultation has been moved to December 8, 2026.

Coordination

Coordination with the workforce development system consists of efforts to partner with workforce providers to directly serve SNAP E&T participants or to align the flow or types of services offered across programs.

Describe any special State initiatives (i.e. Governor-initiated or through State legislation) that include SNAP E&T. Describe any efforts taken by the State agency to coordinate these programs, services, partners, and/or activities with the State's E&T program.

N/A

Describe the extent to which the State agency is carrying out SNAP E&T programs in coordination with title I programs under the Workforce Innovation and Opportunity Act (WIOA).

SNAP E&T refers clients to WIOA programs. Per our agreement with Workforce Alliance of South Central Kansas (WASCK) and encourages dual enrollment in SNAP E&T and WIOA.

Is SNAP E&T included as a partner in the State's WIOA Combined Plan?

- ☐ Yes
- ☒ No

Describe how the State agency is coordinating with TANF/GA programs, services, partners, and/or activities. Describe any TANF/GA special initiatives targeting specific populations and any actions taken to coordinate with these efforts.

DCF administers TANF for the State of Kansas. All coordination is easily accomplished as the TANF program leadership are internal to DCF. Specific areas that SNAP E&T and WFS work together include the following:
1. Meeting with the Kansas Dept. of Commerce to better integrate with the Workforce Centers across Kansas. The objective for both SNAP E&T participants and WFS. The Dept. of Commerce has asked SNAP E&T and WFS to be part of their Strategic Planning Sessions in 2026.
2. Resources between the two groups are shared and communicate through our Community Engagement Coordinators allowing clients of both programs to access specific resources across the state.

Describe how the State agency is coordinating its SNAP E&T program with any other Federal or State employment program (e.g. HUD, child support, re-entry, refugee services).

N/A

CONSULTATION WITH INDIAN TRIBAL ORGANIZATIONS (ITOs)

State agencies are required to consult with Tribes about the SNAP State Plan of Operations, which includes the E&T State Plan, per 7 CFR 272.2(b) and 272.2(e)(7). The consultations must pertain to the unique needs of Tribal members. State agencies are required to document the availability of E&T programs for Tribal members living on reservations in accordance with 7 CFR 273.7(c)(6)(xiii). The goal of this section is to describe how the State agency consulted with Indian Tribal Organizations (ITOs), describe the results of the consultation, and document the availability of E&T programs for Tribal members living on reservations.

Did the State agency consult with ITOs in the State?

- [x] Yes
- [ ] Yes, but not all ITOs
- [ ] No
- [ ] There are no ITOs in my State

List the ITOs consulted and describe the outcomes of the consultation(s). Provide specific examples of how the State agency incorporated feedback from ITOs into the design of the E&T program (e.g. unique supportive service, new component, in-demand occupation). Include the title of the person you consulted and the date.

Date	Name of ITO	Title(s) of Person Consulted	Outcome of Consultation
08/15/2025	Iowa, Prairie Band, Potawatomi Nation, Sac & Fox and Kicapoo	Representatives	The federally recognized Tribes in Kansas are the Iowa Tribe, Kickapoo Tribe, Prairie Band Potawatomi Nation and Sac & Fox Nation. Each Tribe administers its own Food Distribution Program on Indian Reservations (FDPIR). Because DCF's attempts to consult with Tribal representatives were unsuccessful, DCF engaged the Kansas Native American Affairs Office (KNAA) to assist in identifying and engaging appropriate contacts from each Tribe. While DCF has identified Tribal contacts, we remain unsuccessful in engaging those individuals. DCF also facilitated a statewide

			bi-monthly virtual meeting providing an opportunity for state agencies and community partners to share and discuss collaborative efforts to address food insecurity. In April 2024, DCF began inviting the identified Tribal representatives to participate in these meetings. An FAET representative attended the August 15, 2025 meeting to attempt to start consultation with the tribe. No representatives from the tribes appeared at any of these meetings. FAET is also scheduled to attend the July 2026 quarterly tribal meeting with DCF to attempt to consult with the Kansas Tribes.
07/22/2026	Sac & Fox, Prairie Band Potawatamie	Doni Redus - Grant Accountant; Sarah Redus - representative	The tribes present at this meeting have agreed to allow a DCF representative will present additional information about SNAP and FAET at the October tribal meeting and consult with them regarding implementation of the program for members of the tribe.

Specify any ITOs where E&T services are provided.

N/A

Will the State agency be seeking enhanced reimbursement for E&T services (75%) for ITO members who are residents of reservations, either on or off the reservation?

- ☐ Yes
- ☒ No

UTILIZATION OF STATE OPTIONS

State agencies have the flexibility to implement policy options to adapt and meet the unique needs of State populations. Check which options the State agency will implement.

Does the State agency offer an E&T program statewide?

- [x] Yes
- [ ] No

Indicate the type of E&T program the State agency operates.

- [x] Mandatory per 7 CFR 273.7(e)
- [ ] Voluntary per 7 CFR 273.7(e)(5)(i)
- [ ] Combination of mandatory and voluntary

What are the characteristics of the population the State intends to mandate to its E&T program? Separate characteristics with commas to ensure that all data points are captured independently. Be sure all spelling errors are resolved to avoid inconsistencies in reporting.

Able-bodied adults 18-59 with no dependents under 14, who are not working 30 hours per week.

Does the State agency serve the following populations? Select all that apply.

- [ ] Applicants per 7 CFR 273.7(e)(2)
- [ ] Exempt members of zero benefit households that volunteer for SNAP E&T per 7 CFR 273.10(e)(2)(iii)(B)(7)
- [ ] Categorically eligible households per 7 CFR 273.2(j)

Does the State agency enable ABAWDs to regain SNAP eligibility through E&T and verify that the ABAWD will meet the work requirement within 30 days?

- [ ] Yes
- [x] No

CHARACTERISTICS OF INDIVIDUALS SERVED BY E&T

State agencies are required to include information about the categories and types of individuals they plan to exempt from mandatory E&T participation (7 CFR 273.7 (c)(6)(iv)), as well as the characteristics of the population they plan to place in E&T (7 CFR 273.7 (c)(6)(v)).

What are the characteristics of the population the State agency intends to serve in E&T (e.g. target population)? This question applies to both mandatory and voluntary participants.

- [x] ABAWDs
- [x] Homeless
- [x] Veterans
- [ ] Students
- [x] Single parents
- [x] Returning citizens (aka: ex-offenders)
- [x] Underemployed
- [x] Those that reside in rural areas

Estimated Participant Levels

Project participation in E&T for the upcoming Federal fiscal year. In determining the estimated participation, it is important to be as accurate as possible. As appropriate, projections should be based upon actual figures from the current Federal fiscal year.

QUESTION	RESPONSE FIELD
Anticipated number of work registrants	59,000

State Exemptions

List State exemptions from E&T and the participation, such as individuals to be exempted under each category.

EXEMPTION	TOTAL INDIVIDUALS
Work Registrants meeting a Work Registrant or ABAWD exemption. Work Registrants who are 16 or 17 years old and Work Registrants with at least one child under 14 in the SNAP household. Work Registrants who are not work ready or appropriate for the program.	8,555

QUESTION	RESPONSE FIELD
Total estimated number of work registrants exempt from mandatory E&T	8,555
Percent of all work registrants exempt from E&T	14.50%

ABAWDs

QUESTION	RESPONSE FIELD
Anticipated number of ABAWDs in the State	15,000
Anticipated number of ABAWDs in waived areas of the State	0
Anticipated number of ABAWDs to be exempted under the State's ABAWD discretionary exemption allowance	0
Anticipated number of ABAWDs in the State who meet the criteria under 7 CFR 273.7(d)(3)(i)	15,000

E&T Participants

QUESTION	RESPONSE FIELD
Anticipated number of mandatory E&T participants	3,500
Anticipated number of voluntary E&T participants	0
Total anticipated number of E&T participants	3,500
Anticipated number of ABAWDs to be served in E&T	3,500

How frequently will the State plan to re-evaluate these exemptions from mandatory E&T?

- [x] Annually
- [ ] Bi-annually
- [ ] Other

ORGANIZATIONAL RELATIONSHIPS

State agencies are required to include information on the organizational relationship between the units responsible for certification and the units operating the E&T components, including units of the statewide workforce development system, if available. For the purposes of the questions below, E&T providers are considered to include units of the statewide workforce development system. FNA is specifically interested in ensuring that the lines of communication are efficient and that, if applicable, noncompliance with mandatory E&T is reported to the certification unit within 10 working days after the noncompliance occurs, per 7 CFR 273.7(c)(4). State agencies must also include information on the relationship between the State agency and other organizations it plans to coordinate with for the provision of services.

The following questions are about how the E&T program is structured in your State agency.

Indicate which division within the SNAP State agency is responsible for the E&T program. (i.e. establishes E&T policy, contracts for E&T services, monitors providers). For example, explain if the E&T program unit is separate from the SNAP certification unit, and if there are separate E&T units at the county level.

Within Kansas Department for Children and Families (DCF), Economic and Employment Services (EES) eligibility staff serve as the SNAP certification team and the SNAP E&T team serves as the SNAP E&T unit. The EES Director is responsible for the development and implementation of policies for numerous federally funded programs including TANF, Child Care, LIEAP, SNAP and other USDA food programs. EES Deputy Directors and other administrative staff members assist in the development and implementation of SNAP certification policies and processes. Policy implementation is vetted through an established internal process. EES administrative staff facilitate several regularly scheduled meetings to provide opportunities for collaboration between administration and field staff. Policy Planning meetings allow administrative staff, including representation from the Business Process Management team and the Training Unit, and field staff opportunities to discuss program policy changes required due to federal or state policy changes. The Implementation Planning Team discusses policy changes, initiatives, and system enhancements to determine the most effective and efficient implementation plan through the lens of staff who directly engage clients. The KEES Advisory Group is comprised of KEES end users who discuss potential system enhancements and data fixes. The EES Program Integrity Work Group coordinates efforts to ensure statewide consistency and accountability in program implementation. Once every two months, EES administrative staff meet with field Program Administrators to share information and increase opportunities for intentional shared responsibility with field leadership. While serving different purposes, each team meeting includes elements of program integrity and accountability.
The EES Fiscal Services team is responsible for vetting and securing formal agreements for SNAP E&T services primarily through a competitive Request for Proposal process. This team is also responsible for monitoring each provider organization’s compliance with the requirements detailed in its agreement.

How does the E&T unit coordinate and communicate on an ongoing basis with the units responsible for certification policy?

There are several points of coordination between SNAP E&T operations and the certification policy team. When FNS issues new federal regulations or guidance (for example, changes to ABAWD definitions, age ranges, or exemptions), the certification policy unit drafts state-level policy updates. The SNAP E&T unit provides input
on operational feasibility, timelines, and provider capacity before the new policy is finalized in KEESM.

The SNAP E&T unit leads the drafting of the State Plan, but the certification policy staff contribute sections that affect eligibility, work registrant identification, exemptions, and ABAWD policy. This ensures that eligibility rules and SNAP E&T operations align. Kansas participates in monthly calls with FNS E&T program managers and policy staff. They also participate in bi-monthly Policy Planning meetings that cover Implementation issues, KEESM clarifications, consistency in how “work registrants” and “mandatory SNAP E&T participants” are identified, and upcoming federal changes that affect both eligibility and SNAP E&T.

Describe the State's relationships and communication with intermediaries or E&T providers.

DCF utilizes the Provider Portal in the Kansas Eligibility Enforcement System (KEES) for day-to-day communication with SNAP E&T providers. DCF also conducts regular meetings between E&T leadership and providers. These meetings are an opportunity for DCF and the provider to determine what is going well and if changes need to be made to process. DCF uses these meetings as an opportunity to train providers and update them on policy and procedural changes. DCF and providers are also in email contact between regular meetings.

Describe how the State agency shares new policies, procedures, or other information with the intermediary or other E&T provider.

SNAP E&T facilitates monthly meetings with WASCK to share new policies or procedures. When policy or procedural changes, that are outside the scope of DCF’s written agreement with the provider or are effective prior to the next regularly scheduled meeting, the Fiscal Services team emails the changes to the provider and amends the agreement as appropriate. DCF will also begin conducting annual in-person meetings with the providers.

Describe how the State agency, intermediaries, and E&T providers share participant data and information. Include the names of any MIS systems (or other modes of communication) used.

SNAP E&T providers and DCF can communicate through Kansas Eligibility Enforcement System’s provider portal. Through the portal, providers report participant attendance, non-compliance, client progress and client-specific concerns. When providers report information that may impact a participant’s continued
eligibility for SNAP benefits, e.g., new or increased countable earnings that exceed the maximum allowable earnings for the household size, CNs email that information to eligibility staff for appropriate case action.

If the State uses a MIS system, describe the E&T related data that is tracked and stored in those systems (e.g. referrals, noncompliance with program requirements, provider determination, etc.), and whether the system(s) interact with each other.

In KEES, SNAP E&T tracks referrals, written notices sent to participants, participants assessments, case management notes, participant reimbursements, and payments to providers made on behalf of participants.
Also, in KEES, SNAP E&T staff can view SNAP case information including case status, countable ABAWD months, previous and current violation information, and other active programs such as TANF and Child Care Assistance.

Describe the State agency's process for monitoring E&T providers' program and fiscal operations. Include plans for direct monitoring such as visits, as well as indirect monitoring such as reviewing program data, financial invoices, etc.

EES requires SNAP E&T providers to submit monthly reports to the EES Fiscal Services team to initiate the monthly reimbursement process. A Fiscal Services specialist reviews submitted reports detailing services provided and client progress. Providers can only be reimbursed for services provided to active SNAP E&T participants consistent with the participant's referral for services and the scope of work detailed in the written agreement between DCF and the provider. If in reviewing submitted reports, the specialist notes incomplete or inaccurate information, the specialist works with the provider to appropriately address the concerns and edit the report as needed. With sufficient documentation to support a reimbursement request, the specialist forwards the request to DCF Office of Grants and Contract's Post-Award Unit for payment processing. The Fiscal Services team notifies SNAP E&T of new, changed, and terminated provider agreements. They also work with SNAP E&T to ensure that monthly invoices are accurate and that services being provided are within the program scope.
SNAP E&T & ME will also begin conducting annual in-person visits with the provider to review information. ME will be utilizing the Provider Interview Tool received from FNS.

How frequently does the State agency monitor E&T providers' program and fiscal operations?

- [ ] Daily
- [ ] Weekly
- [x] Monthly
- [ ] Quarterly
- [ ] Bi-Annually
- [ ] Annually
- [ ] Other

Describe how the State agency evaluates the performance of providers in achieving the purpose of E&T (assisting members of SNAP households in gaining skills, training, work, or experience that will increase their ability to obtain regular employment and meets State or local workforce needs).

Each agreement between DCF and a SNAP E&T provider details expected performance outcomes. When a Fiscal Services specialist reviews required monthly reports submitted by a provider, the specialist evaluates the provider's progress toward meeting those outcomes. If a provider is not meeting performance expectations, the specialist contacts the provider to determine the root cause of the unacceptable performance. Once identified, the specialist and the provider work together to develop and implement a corrective action plan. The specialist and E&T career navigators regularly monitor progress toward meeting performance expectations.
SNAP E&T also encourages participants to share their experiences with providers via SNAP E&T's provider feedback form. When negative feedback is received, the Fiscal Services specialist contacts the provider to address the concern. If warranted, the specialist and the provider work together to develop and implement a corrective action plan. The specialist and SNAP E&T career navigators then regularly monitor the provider. If the provider fails to meet the performance standards detailed in the agreement with DCF, the Fiscal Services team terminates the agreement.

SNAP E&T supervisory staff and EES Program Integrity team members regularly review KEES case files to ensure career navigators are correctly referring clients to components and providing case management services at a level increasing the likelihood of positives outcomes. If deficiencies are discovered, career navigators are required to participate in additional training. If warranted, the EES Training team revises or creates desk aids and other training materials to assist career navigators in adhering to best practices and established processes.

How frequently does the State agency evaluate the performance of providers in achieving the purpose of E&T?

- [ ] Daily
- [ ] Weekly
- [x] Monthly
- [ ] Quarterly
- [ ] Bi-Annually
- [ ] Annually

SCREENING FOR WORK REGISTRATION

State agency eligibility staff must screen for federal exemptions from work registration, per 7 CFR 273.7(a).

Describe how the State agency screens applicants to determine if they are work registrants.

SNAP eligibility staff screen applicants/recipients to determine if they are work registrants at application, recertification, or when there is a case change that occurred including at periodic report. Each applicant/recipient is screened by considering the following allowable exemptions:
*Employed 30 hours per week or receiving weekly earnings at least equal to the federal minimum wage multiplied by 30.
*Physically or mentally unfit.
*A parent or other caretaker personally providing care for a child under the age of *Subject to and complying with TANF work requirements.
*Applying, appealing, receiving or approved to received unemployment.
*Participant in a drug addiction or alcohol treatment and rehabilitation program.
*Student enrolled at least half-time in a recognized school, training program, or institution of higher education.
*Age 60 or over.
*Aged 16 or younger or aged 16-18 and is non-head-of-household member and working towards the attainment of a high school diploma or equivalent.

How does the State agency work register non-exempt individuals?

DCF considers applicants/recipients to be work registered when there is a signed application or recertification received.

At what point in the certification process does the State agency provide the written explanation of the applicable work requirements? Select all that apply.

- [x] Point of Intake
- [x] Point of Certification
- [x] Reported change in the work registrant status of household members
- [x] Point of Recertification
- [ ] State does not provide written explanation

At what point in the certification process does the State agency provide the oral explanation of the applicable work requirements? Select all that apply.

- [x] Point of Intake
- [x] Point of Certification
- [x] Reported change in the work registrant status of household members
- [x] Point of Recertification
- [ ] State does not provide oral explanation

SCREENING FOR REFERRAL TO E&T

The State agency must screen each work registrant to determine if it is appropriate, based on State-specific criteria, to refer them to the E&T program per 7 CFR 273.7 (c)(2). State agencies may operate program components in which individuals elect to participate, per 7 CFR 273.7(e)(4).

List the State-specific criteria eligibility workers use to screen individuals to determine if it is appropriate to refer them to the State's SNAP E&T program.

State specific criteria used to exempt an individual from participation in the SNAP E&T program during the screening process is a follows:
Applicants/recipients are first screened to determine whether or not they meet a work registrant or ABAWD exemption.
Those applicants/recipients that do not meet a work registrant or ABAWD exemption would be screened for appropriateness for the SNAP E&T program to determine if a referral is appropriate or not at application, recertification, or when there is a case change that occurred including at periodic report.
Examples that would screen an applicant out of the SNAP E&T program would include but are not limited to:
*Does the applicant have the ability to clean their clothes or themselves to attend work or interviews.
*Homeless, without a regular night-time residence.
*Lives in a rural area with no public transportation and does not have own transportation.
*Unable to read or write well enough to complete job searches or training.

What information does the State provide to a SNAP recipient to explain SNAP E&T participation criteria?

Consolidated Work Requirements are provided on the application and recertification forms. Eligibility staff verbally review the Consolidated Work Requirements at the time of application, recertification, or when there is a case change that has occurred including at periodic report. Written notification is mailed to the household when SNAP benefits are approved.
The Kansas Eligibility Enforcement System (KEES) automatically generates the Consolidated Work Requirement notice through a nightly batch and notice details work requirements and SNAP E&T participation requirements.

How does the State document that the information has been provided?

Documentation that the Consolidated Work Requirements have been read and reviewed with the applicant/recipient is notated on the script and documentation template for applications and recertifications by checking the box that the Consolidated Work Requirements were read and reviewed with the applicant/recipient. Documentation that the Consolidated Work Requirements have been read and reviewed when a change occurred including at periodic report would be documented in the KEES Journal. The Consolidated Work Requirement notice is mailed to the household when SNAP benefits are approved and are viewable in the distributed documents page in the Kansas Eligibility Enforcement System (KEES).

What is the State's model for screening and referral to SNAP E&T? Select all that apply.

- [x] Reverse Referral
- [x] Direct Referral

When does screening for referral to E&T occur? Select all that apply.

- [x] Initial Certification
- [x] Recertification
- [x] Reported change in the work registrant status of households
- [ ] Other

Describe the process for screening for direct referral to E&T, including the staff involved.

At application, recertification, or when a case change has occurred including at periodic report, eligibility staff screen applicants/recipients for work registration, ABAWD and participation in SNAP E&T. At application and recertification, the script and documentation template is used to document the screening process for direct referrals. There are screening questions on the script and documentation template to assist eligibility staff in determining potential exemptions under work registration and ABAWD policy, but also appropriateness (work ready) for the SNAP E&T program. The work ready questions are to address any potential barriers for the applicant/recipient to find, obtain, and maintain employment or participant successfully in the SNAP E&T program. Applicants/recipients that meet a work registration, ABAWD or that are not appropriate (work ready) for the program would not be referred to SNAP E&T.

When does the screening for a reverse referral request occur?

The screening for a reverse referral occurs when a client is approved for SNAP. If a provider submits a reverse referral request, the Career Navigator can check the Kansas Eligibility Enforcement System (KEES) for a task. KEES generates a task for the Mandatory E&T upon certification, recertification or when there a case change has occurred including at periodic reports when the recipient is screened and determined mandatory to participate. If the recipient is not appropriate to participate (not work ready), the task generated by KEES is voided by the eligibility worker.

Describe the process for screening during the reverse referral request process, including the staff involved.

The career navigator checks the KEES eligibility system to see if a client has been screened and referred to E&T. If a client has not been screened and referred, the Career Navigator sends email correspondence to the Non-Compliance Coordinator (eligibility staff member) for re-screening. Non-Compliance will follow the next steps based on the screening outcome:
*If client is not currently participating in SNAP Mandatory E&T, is receiving SNAP benefits and is screened as being mandatory to participate in SNAP E&T, a referral will be made to SNAP E&T and assigned to a Career Navigator to complete the assessment process.

*If client is currently participating with SNAP E&T, the Career Navigator will schedule a meeting with the participant to ensure the provider and component are a good fit.
*If the individual is not receiving SNAP benefits, the individual is referred to the DCF website to complete the screening process to determine potential eligibility and to complete a SNAP application.

Are participants informed about participant reimbursements before the individual is referred to E&T by eligibility staff?

- [x] Yes
- [ ] No

How are participants informed about participant reimbursements?

Applicants/recipients are informed about participant reimbursements (PRs) when the Consolidated Work Requirements are read and reviewed at application and recertification or when there a case change has occurred including at periodic reports. The Consolidated Work Notice is mailed to the household when benefits are authorized. Applicants/Recipients are also notified by the Career Navigator at orientation and assessment.
If a participant is unable to attend their scheduled appointment in-person due to transportation issues, they are provided with transportation funds to purchase a bus pass or to pay for gas to attend appointment. If there is no public transportation or other transportation available, the orientation and assessment is completed by phone, and the Career Navigator develops and creates a transportation plan. Other participant reimbursements are provided depending on the need and can included but are not limited to childcare expenses, books and equipment to complete training, interview or work clothing, tools, etc.
Clients working with the Workforce Alliance of SouthCentral Kansas also keep their DCF SNAP E&T Career Navigator. The Workforce Alliance of SouthCentral Kansas Case Manager emails the Career Navigator if the client is in need of participant reimbursements. All participant reimbursements are provided through DCF.

In the case of mandatory participants, if the costs of participant reimbursements exceed any State agency cap or are not available, describe how the State agency ensures individuals are exempted from mandatory E&T.

If the SNAP E&T program is unable to cover a participant’s necessary costs to participate in the SNAP E&T program, the participant will be exempted from the program. This action is documented in the Kansas Eligibility Enforcement System (KEES) journal.

REFERRAL TO E&T

In accordance with 7 CFR 273.7(c)(2), in order to participate in SNAP E&T, the State agency must make the referral. The referral method may vary from participant to participant.

What information does the State provide to E&T participants when they are referred? Select all that apply.

- [x] Information about accessing E&T services
- [ ] Case Management
- [ ] Dates
- [x] Contact information
- [ ] Other

How is the referral communicated? Select all that apply.

- [x] Orally
- [ ] Electronic Forms
- [x] Physical Forms
- [ ] Emails
- [ ] Text Messages
- [ ] Other

If the State receives a reverse referral request from an E&T provider, what steps does the State take?

If a reverse referral is received from a provider, the following steps are taken:
• The career navigator (CN) checks KEES for the client's current SNAP E&T participant status or if there is a referral task set for the client.
• If the client is a SNAP E&T participant, the CN meets with the client to determine if the reverse referral is a good fit. If it is, the referral is accepted, and a new Self-Sufficiency Agreement is completed with the client.
• If the client has a SNAP E&T referral task but is not currently working with SNAP E&T, the client is contacted by the CN, assessed, and notified about the program requirements and their rights to receive participant reimbursements. A Self-Sufficiency agreement is then developed with the client, and the reverse referral is accepted.

How is information about the referral communicated to E&T providers, as applicable?

Referrals are made electronically through the Provider Portal within KEES. The providers are trained to check the system at least once a week for referrals. WASCK staff also attend the weekly group Orientation/Assessment meetings in the Wichita office and referrals are made and first appointments are scheduled with the client at that time.

How is information about the referral communicated within the State agency?

When a client is being referred to SNAP E&T, they are notified verbally when the eligibility worker reviews the Consolidated Work Requirements. They also receive a copy of the Consolidated Work Requirements by mail that includes the SNAP E&T section if they are mandatory.
They will receive a written notice from the Career Navigator with the orientation/assessment appointment time and date. This notice also includes contact information for the career navigator and information about sanctions if a client fails to participate.

What happens during the orientation?

Career navigators review program requirements, participation reimbursements and program options. The assessment is also completed at the orientation appointment. This includes completing a self-assessment form, the O*Net Interest Profiler, determining which components the client will participate in, completing a self-sufficiency agreement and determining which provider reimbursements will be provided to the client.

When are participants assessed?

Participants are assessed during the first appointment, which is a combined orientation/assessment appointment.

Describe the assessment. List the tools used in the assessment.

The client completes a self-assessment form describing their background, interests, and strengths. This information helps the career navigator (CN) ensure the client is work ready. - The CN checks to determine if the client is already participating in activities that may help them meet SNAP E&T mandatory program requirements.
*The client completes the O*Net Interest Profiler, and it is reviewed with the client.
* A Self-Sufficiency Agreement is created with client input. This contains information about what the client needs to do to meet mandatory E&T participation requirements. The client is given a copy of the Self-Sufficiency Agreement and the O*Net Interest Profiler results.
* All information is also added to KEES.
* Participant Reimbursements are approved in KEES as needed.
* Referrals are made to partners as needed.
* A follow up case management is scheduled, and an appointment notice is sent.
The Self-Assessment is the name of a form is completed at the assessment with the Career Navigator. If the client reports major changes, the Career Navigator will review the form with the client for changes.

Are participants reassessed?

- [x] Yes
- [ ] No

When are participants reassessed?

If there is a major change in the participant's situation the career navigator may reassess the client. Also, if a client's SNAP E&T case is closed for more than one year, they are reassessed when they return to SNAP E&T. If the case is closed for less than one year, the career navigator meets with the client to determine if changes have occurred that require a full reassessment.

How are participants reassessed?

The career navigator has the client complete a new self-assessment form, or may review the existing self-assessment form with the client and note any changes. A new self-sufficiency agreement is completed with the client.

CONCILIATION PROCESS

In accordance with 7 CFR 273.7(c)(3), State agencies have the option to offer a conciliation period to noncompliant E&T participants. The conciliation period provides mandatory E&T participants with an opportunity to comply before the State agency sends a notice of adverse action. The conciliation process is not a substitute for the determination of good cause when a client fails to comply.

CASE MANAGEMENT SERVICES

The State E&T program must provide case management services to all E&T participants. In accordance with 7 CFR 273.7(c)(6)(ii), State agencies are required to include specific information about the provision of case management services in the E&T State plan.

Describe how E&T case managers coordinate with other staff and services. Coordination can involve tracking E&T participation, sharing information that may be relevant to participation in E&T (e.g. information related to good cause or a work exemption), and referral to additional services.

QUESTION	RESPONSE FIELD
How do E&T case managers coordinate with: SNAP eligibility staff	SNAP Eligibility staff and SAP E&T Career Navigators are both employed by Kansas DCF under the Economic and Employment Services unit. Screening is completed by SNAP Eligibility staff, and a task is generated in the Kansas Eligibility Enforcement System (KEES) upon certification, recertification or when there is a case change that has occurred including at periodic reports when the recipient is screened and determined mandatory to participate. Tasks alert Career Navigators that a referral has been made, and an assessment appointment must be scheduled. SNAP Eligibility staff communicate with SNAP E&T Career Navigators through email correspondence and through Microsoft TEAMS messaging. TEAMS messaging is used to request immediate assistance from a SNAP E&T Career Navigator when a participant is seen in the lobby and immediate assistance is needed. Email correspondence is used to communicate changes reported and non-compliance.
How do E&T case managers coordinate with: State E&T staff	They communicate with SNAP E&T CNs through email, Instant Messaging and through regular Teams meetings.
How do E&T case managers coordinate with: Other E&T providers	DCF has a provider portal which allows SNAP E&T providers to enter information directly into the system. They also communicate with SNAP E&T CNs through email and through regular Teams meetings. Our Fiscal Services team has quarterly meetings with SNAP E&T providers and annual visits. The Fiscal Services team and the Deputy Director of SNAP E&T Programs are available by email to meet with providers as needed.
How do E&T case managers coordinate with: Community resources	Our EES Community Engagement team assists CNs with connecting to community resources by facilitating direct initial contact. They also frequently attend area career fairs and resource fairs to develop new contacts with community resources.

How does the State agency ensure E&T participants receive targeted case management services through an efficient administrative process, per 7 CFR 273.7(c)(6)(ii)?

CNs complete an individualized service plan with each client on our Self-Sufficiency Agreement form. This outlines what the client is responsible for and what assistance SNAP E&T will provide. The plan is customized based on the client’s goals, strengths, barriers, components the client will be participating in, and participant reimbursements that will be provided to the client. CNs meet with the clients a minimum of once a month to review the individualized service plan and client progress. If needed, a new Self-Sufficiency Agreement form is completed with the client. CNs also require the client or provider to provide verification of their mandatory participation monthly. This information is entered into the KEES system. If the client is in Supervised Job Search, the CN reviews the Job Search sheets with the client and offers additional job leads to the client. If the client is in a training or other component, the CN will discuss this with the client and determine if the client is making progress and

should remain in the component or transfer to another component. If WASCK is providing case management, CNs meet with the provider's Case Manager monthly to discuss client progress. They are also available by email if there is an immediate need or issue that needs to be addressed.

How do your offered case management services support the participant in the E&T program and provide activities and resources that help the participant achieve program goals?

CNs review client's participation and their self-sufficiency agreements during Case Management meetings to ensure that clients are progressing and meeting program goals. If the client is not meeting program goals, the CN will discuss this with the client and provide additional resources as needed. The CN may staff the case with a supervisor if the client is not achieving goals and they need assistance.

How does the SNAP State agency ensure the case management services offered do not act as an impediment to successful participation in E&T?

The state agency allows case management services to be offered in-person, by phone or virtually in order to prevent these services from impeding the client's participation in SNAP E&T. The CNs are also trained to offer the client transportation assistance if the client is scheduled for an in-person appointment and states they are unable to attend in person. If transportation assistance will not alleviate the ability to attend the appointment in-person, the CN is trained to allow other avenues of service to the client, such as phone appointments.

GOOD CAUSE

In accordance with 7 CFR 273.7(i), the State agency is responsible for determining good cause when a SNAP recipient fails or refuses to comply with SNAP work requirements. Since it is not possible for FNA to enumerate each individual situation that should or should not be considered good cause, the State agency must take into account the facts and circumstances, including information submitted by the employer and by the household member involved, in determining whether or not good cause exists.

- [ ] More than three

What is the State agency's criteria for good cause?

DCF SNAP policy outlines DCF’s good cause criteria which generally include the following: 1. Illness or injury 2. Lack of transportation 3. Lack of childcare 4. Conflicting appointments or work responsibilities
Within 10 days of receiving their good cause letter, SNAP recipients must provide DCF with any relevant information that illustrates that something occurred outside their control that resulted in noncompliance with WRs. Good cause is determined by the NCC or EW on a case-by-case basis. The length of time for which good cause is granted is dependent upon the situation. If it is due to a conflicting appointment, the good cause may be granted for the one appointment only. If there is a longer-term issue, such as illness or injury, good cause may be granted for a few weeks, up to the next recertification depending on the severity of the issue.

Describe the State agency's process to determine good cause if there is not an appropriate and available opening for an E&T participant.

If a CN finds during the assessment appointment or during case management appointments that there is not an appropriate or available opening, the CN will notify the NCC. The NCC will make the good cause determination and send a notice to the client describing that determination.

PROVIDER DETERMINATIONS

In accordance with 7 CFR 273.7(c)(18) a State agency must ensure that E&T providers are informed of their authority and responsibility to determine if an individual is ill-suited for a particular E&T component.

Describe the process used by E&T providers to communicate provider determinations to the State agency.

If a provider determines that a referral is not a good fit, the provider will enter that determination including the justification for that determination into the Provider Portal within 10 days of the determination. Updating the Provider Portal generates an alert for the CN. When the CN receives the alert, the CN notifies the NCC within 72 hour a provider determination received.

Describe how the State agency notifies clients of a provider determination.

The NCC receives notification through email stating a provider determination has been received. The NCC will send the participant a letter within one week informing the client a provider determination has been made and during the determination period they will not be sanctioned for not participating with the last provider. The ABAWD month will not be counted against the client's 3-month time limit for the month of determination. The NCC is also responsible for rescreening the client for any exemptions and appropriateness to SNAP E&T. If the client does not meet an exemption, but the NCC determines they are no longer a good fit for SNAP E&T, the client will be provided good cause for not participating. This is completed within 10 days from the date the provider determination is received. If the client cannot be exempted from SNAP E&T, the NCC will email the CN letting them know they are still mandatory for E&T. The CN will then schedule an appointment with the client via letter to reengage the client in participation.

What is the timeframe for contacting clients after receiving a provider determination?

- [ ] 1-3 Days
- [x] 4-7 Days
- [ ] 8-10 Days

DISQUALIFICATION POLICY FOR GENERAL WORK REQUIREMENTS

This section applies to the General Work Requirements, not just to E&T, and should be completed by all States, regardless of whether they operate a mandatory or voluntary E&T program.

All work registrants are subject to SNAP work requirements at 7 CFR 273.7(a). A nonexempt individual who refuses or fails to comply without good cause, as defined at 7 CFR 273.7(2), (3), and (4), with SNAP work requirements will be disqualified and subject to State disqualification periods. Noncompliance with SNAP work requirements includes voluntarily quitting a job or reducing work hours below 30 hours a month, and failing to comply with SNAP E&T (if assigned by the State agency).

What period before application does the State agency use to determine voluntary quit and/or reduction in work effort without good cause per 7 CFR 273.7(j)(1)?

- [x] 30 Days
- [ ] 60 Days

For all occurrences of non-compliance discussed below, must the individual also comply to receive benefits again?

- [ ] Yes
- [x] No

For the first occurrence of non-compliance per 7 CFR 273.7(f)(2), the individual will be disqualified until the later of:

- [ ] One month or until the individual complies, as determined by the State agency
- [x] Up to 3 months

For the second occurrence of non-compliance per 7 CFR 273.7(f)(2)(ii), the individual will be disqualified until the later of:

- [ ] Three months or until the individual complies, as determined by the State agency
- [x] Up to 6 months

For the third or subsequent occurrence per 7 CFR 273.7(f)(2)(iii), the individual will be disqualified until the later of:

- [ ] 6 months or until the individual complies, as determined by the State agency
- [x] A date determined by the State agency
- [ ] Permanently

The State agency will disqualify the:

- [x] Individual
- [ ] The entire household if the head of household is an ineligible individual

PARTICIPANT REIMBURSEMENTS

In accordance with 7 CFR 273.7(d)(4), State agencies are required to pay for or reimburse participants for expenses that are reasonable, necessary, and directly related to participation in E&T. State agencies may impose a maximum limit for reimbursement payments. If a State agency serves mandatory E&T participants, it must meet all costs associated with mandatory participation. If an individual's expenses exceed those reimbursements available by the State agency, the individual must be placed into a suitable component or must be exempted from mandatory E&T.

PARTICIPANT REIMBURSEMENT DETAILS

Complete the table below with information on each participant reimbursement offered/permitted by the State agency (do not indicate information for each provider). A description of each category is included below. If the participant reimbursement is provided by multiple entities (such as State agencies and E&T providers) or has multiple methods of payment, a separate entry in the table must be completed.

- **Allowable Participant Reimbursements.** Every State agency must include child care and transportation in this table, as well as other major categories of reimbursements (examples of categories include, but are not limited to: tools, test fees, books, uniforms, license fees, electronic devices, etc.). Mandatory States must meet all costs associated with participating in an E&T program, or else they must exempt individuals from E&T.
- **Participant Reimbursement Caps (optional).** States have the option to establish maximum levels (caps) for reimbursements available to individuals. Indicate any caps on the amount the State agency will provide for the participant reimbursement.
- **Who provides the participant reimbursements?** Indicate if the participant reimbursement is provided by the State agency, a provider, or an intermediary. The State agency remains ultimately responsible for ensuring individuals receive participant reimbursements, even if it has contracted with another entity to provide them.
- **What is the payment method for Participant Reimbursements?** Indicate the mechanism used to disburse payment to E&T participants.
- **Method of disbursement.** Indicate if the participant receives the participant reimbursement in advance or as a reimbursement. Also indicate if the amount of the participant reimbursement is an estimated amount or the actual amount.

- [x] Yes
- [ ] No

Provide a URL link or describe in a written response: the payment rates for childcare reimbursements, established in accordance with the Child Care and Development Block Grant (CCDBG) based on local market rate surveys.

Child Care Assistance through CCDBG is available for families receiving Food Assistance and participating in approved work activities. There is no family share assigned for these situations. Rates are determined based on the provider type, county of the provider, and age of the child. The rates are established based on the most recent Market Rate Survey and Narrow Cost Analysis that consider the cost of meeting the required health and safety regulations. Because the SNAP E&T program is a mandatory program for able-bodied adults age 18-64 without dependents under 14, it is unlikely these individuals will have a need for childcare; however, DCF allows the option for those with shared custody of a child.

How is childcare paid for?

- [ ] Direct payment to provider
- [ ] Reimbursement to participants
- [ ] Provider voucher
- [ ] Contract for dependent care
- [x] Other

Explain how else childcare is paid for.

Childcare funds are placed on the client's EBT funds. These EBT funds are able to be accessed by contracted childcare providers.

If dependent care agencies have a waiting list or otherwise cap the number of enrolled dependents, how will the State agency ensure E&T participants with dependent care needs receive dependent care?

There is not a current waitlist for Child Care Assistance in Kansas, and Kansas does not cap the number of enrolled dependents. If a waitlist is needed, DCF will apply established priorities for services with the highest priority given to the families participating in work programs who are receiving TANF, Food Assistance, or Tribal TANF.

How does the State agency ensure that the participant has the necessary participant reimbursements to begin participation in the E&T program?

Part of the orientation/assessment process is determining what barriers the client has, what components they will be participating in and what participant reimbursements will be needed in order to participate successfully in the program. CNs continue to discuss the client's needs during monthly case management
meetings to determine what additional participant reimbursements are needed. Clients also have their CN contact information if participation cost arises between case management appointments.

WORK REGISTRANT DATA

The SNAP general work requirements are described at 7 CFR 273.7(a). Individuals who do not meet a federal exemption from the general work requirements, as listed in 7 CFR 273.7(b)(1), are subject to the general work requirement and must register for work. In accordance with 7 CFR 273.7(c)(10), the State agency must submit to FNA the number of work registrants in the State as of October 1st. This information is submitted on the first quarter E&T Program Activity Report (FNS-583).

Describe the process the State agency uses to count all work registrants in the State as of the first day of the new fiscal year (October 1).

Each October 1, an SQL query is run in KEES to apply the federal definition of work registrant to all active SNAP participants.

Provide information about how work registrant data is pulled from the eligibility system, including the date the data is pulled.

At the end of the fiscal period, the data is run based on the client identification number which ensures that each person is counted only once.

How are work registrants identified in the eligibility system?

Information about the client's age, employment status and number of hours worked, work registrant exemptions and dependents are entered into the KEES system. The system then determines if a client is a work registrant and the client's work registration status is automatically populated when EDBC is run. This includes whether or not the client is exempt and the exemption reason.

Describe measures taken to prevent duplicate counting of work registrants within the federal fiscal year.

Work Registrants identified from October 2 to September 30 are compared to the October 1 query based on client identification numbers. This prevents duplication in the reporting.

NON-EDUCATION, NON-WORK COMPONENT: JOB RETENTION

Description of the component. Provide a summary of the activities and services.

Job Retention is aimed at supporting clients with maintaining unsubsidized employment secured after participation in the SNAP E&T program. CNs contact clients in retention at least monthly to ensure the client remains successfully employed and to see if there are any barriers to the employment that the CN can assist the client in overcoming. Clients are also encouraged to contact the CN by phone or email if employment issues arise during the retention period. This service is provided for a minimum of 30 days and up to 90 days. Level of effort for JR is one hour per month.

Indicate the Target Population this component will serve. Select all that apply.

- [x] ABAWDs
- [x] Homeless
- [x] Returning citizens (aka: ex-offenders)
- [x] Single parents
- [x] Those that reside in rural areas
- [ ] Underemployed
- [x] Veterans

Describe the criteria for participation. Include the skills, knowledge, or experience necessary for participation in the component. For example, literacy or numeracy levels, recent labor market attachment, computer literacy, etc.

SNAP E&T participants who secured unsubsidized employment after participation in E&T.

Outcome Measure	Describe the methodology for the outcome reporting measure. Include timeframes being reported (e.g. denominator and numerator)
Number and percentage of people who successfully completed 90 days employment after beginning Job Retention	Numerator will include those participants who participated in E&T during the period of 10-1-2025 to 9-30- 2026 Denominator will include the number of participants whose food assistance was reduced or closed due to earned income during the period of 10-1-2025 to 9-30-2026.

NON-EDUCATION, NON-WORK COMPONENT: JOB SEARCH TRAINING

Description of the component. Provide a summary of the activities and services.

JST prepares clients for the SJS component by providing a variety of services to support someone becoming ready for work. Services include, but are not limited to, basic computer training, soft skills trainings, email creation, resume creation and mock interviewing. JST is expected to be completed in two to three weeks with a maximum level of effort of 19 hours per week.

Indicate the Target Population this component will serve. Select all that apply.

Outcome Measure	Describe the methodology for the outcome reporting measure. Include timeframes being reported (e.g. denominator and numerator)
Number and percentage of people who entered full time employment after completion of component.	Numerator will include those participants who are employed full- time two quarters post-completion 4- 30-2027 to 6-30-2027. Denominator will include the number of participants who participated in JST component during the period of 10-1-2026 to 9-30-2027.

NON-EDUCATION, NON-WORK COMPONENT: SUPERVISED JOB SEARCH

Provide a summary of the State guidelines implementing supervised job search.

The Supervised Job Search activity consists of CNs regularly emailing applicable job leads with application instructions to clients. CECs meet with local employers to find out what jobs are available and to gather application instructions that CN can forward to their clients.
Clients are reassessed every 90 days to see if JST would be beneficial.
State approved locations: Supervised job search usually occurs remotely. Clients can come to DCF locations and access computers for job search and can access computers for job search through their local Workforce Centers. WASCK provides supervised job search at their location.
Direct supervision by skilled staff: Case managers meet one on one with clients a minimum of once a month to review job search activities. CNs review the lists with the client to ensure the client's participation meets the hourly requirements determined in the self-sufficiency agreement. They also review to ensure that clients are applying for appropriate jobs and to provide any additional assistance the client may need.
WASCK provides one-on-one supervised job search when needed and also meet regularly with clients who are in supervised job search through them to ensure that the client is applying successfully for appropriate jobs.
Tracking: The job search tracking sheets are completed by participants to record their job search efforts. These are turned in monthly.
Maximum Level of Effort – 19 hours per week.
PRs Electronic devices may be provided for clients involved in remote job search. If a client does not have access to a computer, SNAP E&T has a resource available to provide refurbished computers and month-to-month internet access to E&T clients at a reduced cost.

Describe the direct path to employment.

DCF works with the local workforce systems in the state to determine which jobs are in demand. CECs also work with local employers to find out what jobs are available and if possible, set up a soft handoff when possible so that Career Navigators can provide client resumes directly to the employers instead of completing an online application process.

Not supplanting. Describe how the State agency ensures that costs attributed to the E&T program are not supplanting funds used for other existing educational programs.

SNAP E&T reviews all invoices to ensure that 1) only agreed upon services are included and 2) SNAP E&T is not being charged for items that are eligible for payment through other funds. As the payer of last resort, SNAP E&T EPB is not used to cover educational related expenses for any services available with other federal, state, or local funding sources.

Cost parity. Describe how the State agency ensures that costs charged to E&T do not exceed the costs charged for non-E&T participants.

All Service Agreements must meet DCF's established rates or the rates offered to the general public, whichever is less. If the cost to provide a service is less than the established rate or there is not an established rate, the rate that is tied to the Service Agreement will always be what is charged to the general public for the same service or the lesser of the two. For example: community college courses and trainings are charged at the same tuition and fee rates as the general public (i.e. comparable tuition).

FUNDING SOURCES

Fields for the Funding Sources section will populate from other sections, such as the Operating Budget section or annual allocations decided by FNA OET.

The system will provide the States 100 percent allocation as well as the target for the total 50/50 funds, as provided in the annual E&T final allocation memo.

State agencies may enter funds into the field "100 Percent Federal Grant - Additional Funds" for planning purposes. This field must be blank before initial submission. State agencies that wish to request additional 100% funds can do so via the Funding Requests tab. If the request is approved, State agencies will see the approved amount populated in this field, and a new State Plan Amendment must be submitted.

The system utilizes a formula that distributes administrative costs to the various funding sources (i.e. 100 percent Federal, 50 percent Federal Admin and 50 percent Non-Federal Admin.) The formula also establishes a funding hierarchy for the use of all available 100 percent Federal funds. This funding hierarchy will assign the planned administrative expenses against the regular 100 Federal grant first, then depending upon availability, against additional 100 percent funds, able-bodied adults without dependents (ABAWD) pledge funds, if applicable. Any planned costs over the available 100 percent funds will be evenly distributed against the 50 percent Admin funds.

The planned expenses shown for the field "100% Federal Grant" will be inclusive of the formula allocation, as well as any additional Federal funds approved. Fields in the column “Distribution of Planned Expenses” are populated from the planned expenses table. States can use this table to extrapolate figures, but cannot submit the form until 100% of Federal additional funds under the "Allocation or Target" column has been removed.

PLEDGE TO SERVE ALL ABAWDS

The Act authorizes FNA to allocate $20 million annually to State agencies that commit, or pledge, to ensuring the availability of education, training, or workfare opportunities that permit able-bodied adults without dependents (ABAWDs) to remain eligible beyond the 3-month time limit.

To be eligible for these additional funds (pledge funds), State agencies must pledge to offer and provide an opportunity in a work program that meets the participation requirements of 7 CFR 273.24 to every applicant and recipient who is in the last month of the 3-month time limit and not otherwise exempt. Individuals are exempt from the time limit if they meet an exception under 7 CFR 273.24(c), reside in an area covered by a waiver in accordance with 7 CFR 273.24(f), or who are exempted by the State under 7 CFR 273.24(g).

Is the State agency pledging to offer qualifying activities to all ABAWDs subject to the criteria under 7 CFR 273.7(d)(3)(i)?
